Professional Summary

Results-driven Computer Science Engineering undergraduate with hands-on experience in full-stack development, scalable backend systems, cloud-native deployment, and AI-driven applications. Skilled in Java, React.js, Node.js, SQL, and NoSQL. Strong understanding of data structures, algorithms, microservices architecture, and API design. Adept at developing high-performance, testable, and maintainable solutions following Agile and DevOps practices.

Experience

Intern – AI/ML Domain — Infosys Springboard — Present

- Participating in a hands-on internship focused on Artificial Intelligence and Machine Learning.
- Gaining practical experience in data preprocessing, model development, and NLP-based applications.
- Developing Python-based AI/ML solutions using **scikit-learn**, **spaCy**, and **Pandas**.

Projects

Full-Stack Movie Ticket Booking Platform

React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Docker, AWS

- Developed a **MERN-based full-stack platform** for browsing, seat selection, booking, and payment simulation.
- Designed and deployed **RESTful APIs** for authentication, seat management, and booking workflows.
- Created optimized **MongoDB schemas and queries** for secure and scalable data storage.
- Containerized the application using **Docker** and deployed it on **AWS** for scalability.
- Conducted **unit and integration testing** while following Agile/Scrum methodologies.

Resume Analyzer using NLP

Python, Streamlit, scikit-learn, spaCy, Pandas

- Built an **AI-driven resume parser** to extract skills, experience, and education from unstructured text.
- Implemented **NLP pipelines** with spaCy for Named Entity Recognition and POS tagging.
- Developed **classification models** using scikit-learn for job domain categorization.
- Designed **interactive dashboards** with Streamlit and Matplotlib for real-time analytics.
- Optimized preprocessing and feature extraction for improved accuracy and performance.

QuickBite – Food Delivery Platform

React.js, Vite, Node.js, Express.js, MongoDB, Tailwind CSS, REST APIs, Docker, AWS

- Developed a **full-stack food delivery app** featuring authentication, restaurant menus, and order tracking.
- Built a responsive frontend using **React.js + Vite + Tailwind CSS** and a secure backend with Node.js and Express.js.
- Deployed containerized microservices using **Docker** on **AWS** with MongoDB as the database.

Technical Skills

- **Programming Languages:** Java, Python, C, C++, SQL, HTML, CSS, JavaScript
- **Frameworks & Libraries:** React.js, Node.js, Express.js, Spring Boot, Pandas, NumPy, scikit-learn, spaCy, NLTK
- **Databases:** MySQL, MongoDB, Oracle Cloud
- **Cloud & DevOps:** AWS, Azure, Docker, Kubernetes, CI/CD, Git, GitHub

Education

B.E. – Computer Science and Engineering — East West Institute of Technology, Bengaluru — CGPA: 8.7 (2022 – Present)
PUC — Jnanabharathi PU College, Kunigal — 92.03% (2020 – 2022)
SSLC — GHS Govt. High School, Ujjani — 92.47% (2019 – 2020)

Certifications & Achievements

- **AWS Cloud Foundation** – AWS Academy
- **Google Cloud Essentials & Fundamentals** – Google Cloud Skill Boost
- **Design Thinking & Java Programming** – Infosys Springboard
- **Oracle OCI AI Cloud Associate** – Oracle
- **DevOps, Data Science using Python, Cyber Security** – Ethnotech Solutions
- Solved **100+ algorithmic problems** on HackerRank, LeetCode, and Coding Ninjas
- Participated in **Infosys Springboard Pragathi Cohort**, **TATA Imagination Challenge 2025**, and **TATA Crucible Quiz**
